

UNIMY + EXIN

ARTIFICIAL INTELLIGENCE COMPLIANCE PROFESSIONAL

UNIMY, in collaboration with EXIN, offers the Artificial Intelligence Compliance Professional (AICP.EN) certification program designed for professionals aiming to ensure compliance of AI systems with laws, regulations, and ethical standards. This certification supports leadership in responsible AI adoption aligned with the EU AI Act and global ethical frameworks.

WHO SHOULD JOIN?

This program is ideal for professionals responsible for AI governance and compliance, including:

- AI Compliance Officers
- Quality and Risk Managers
- Legal and Data Protection Officers (DPO)
- Product Managers and AI Engineers
- IT Security and Operations Managers
- C-Suite Executives and Decision Makers

CERTIFICATION

The EXIN Artificial Intelligence Compliance Professional (AICP.EN) certification validates expertise in assuring the legal and ethical compliance of AI systems. It encompasses the following knowledge areas:

- Context of the AI Act
- AI Act in Depth
- Trustworthy AI
- Ethical AI
- AI Act in Practice
- Frameworks to Support Compliance

TRAINING & DURATIONS

- Duration : 2 days (including practical assignments)
- Accredited Training Providers: www.exin.com

LEARNING OUTCOMES

Upon completion, participants will be able to:

- Apply compliance frameworks to AI systems
- Ensure transparency, privacy, and ethical AI usage
- Align with European and international AI standards
- Identify risk categories and manage AI compliance obligations

CERTIFICATION PATHWAY

The EXIN Artificial Intelligence Compliance Professional (AICP.EN) is part of the EXIN AI qualification framework, which includes Foundation, Specialist, and Advanced levels, providing a clear pathway from AI fundamentals to compliance leadership.
